Leader warns against enemies' lies - 3 /Jul/ 2010

Leader of the Islamic Revolution Ayatollah Sayyed Ali Khamenei on Saturday urged using hardware and software facilities as well as fantastic history and culture of the Iranian nation to fill the gap between current condition and the favorite condition.

Receiving a number of officials along with well-known male and female artists

Ayatollah Khamenei noted the arrogance's enmity towards the Iranian nation is originated from the Iranian nation's firm resistance against them adding that the current situation is a sensitive one but the nation will pass it.

Islamic Revolution Leader added that theatre and art works should show the arrogance's enmity towards the Iranian nation.

Ayatollah Khamenei warned against the disgraceful lies of the enemies of the Iranian nation about democracy and human rights and said, "Those who provided Saddam Hussein with weapons and chemical materials to commit crimes against the Iranian nation have established so-called cultural networks today to pursue the same objectives. This fact should not be overlooked by anyone."

"Those who claim that they are friends of the Iranian nation have revealed their enmity towards the Iranian nation. So every political movie should be produced with full awareness not in line with the enemies' goals," Islamic Revolution Leader said.

Ayatollah Khamenei praised the significant role of male and female artists in promoting Islamic culture in the society.

Radio and Television (IRIB) plays a very prominent role in various sectors mainly in displaying documentary movies and serials, Ayatollah Khamenei said.

Radio and Television has turned into a center for enlightening of thoughts, said the Islamic Revolution Leader adding that the late Imam Khomeini described IRIB as a university.

IRIB can provide people from different walks of life with real teachings which could leave vital impacts on their lives, Ayatollah Khamenei said.
