Maintaining one’s mother - 28 /Jun/ 2019

Q: Who should pay the expenses of caring for parents, her daughters/sons? If they have enough money/income, who should look after them?

A: If mother/father has enough income, no one is to pay for her/his expenses. Otherwise, it is duty of the children — male and female — to pay without any difference among them. They should do it in a way that the parent is not bothered/disrespected.
