To Deprive One's Child of Inheritance - 23 /Jan/ 2022

Question: Can a father deprive his child of inheritance or give some children more than the others?

Answer: Depriving some heirs of inheritance is not permissible in the holy law of Islam and is void. But anyone can give his property as a gift to some children or other people before he dies and hand it over to them. Of course, one should not act in such a way as to cause discord and enmity among the heirs.
