Scientific goals in light of faith, key to success - 28 /Jan/ 2010

Leader of the Islamic Revolution, Ayatollah Sayyed Ali Khamenei received researchers and scientists collaborating with Royan Institute on Thursday.
Ayatollah Khamenei said scientific goals should be set very carefully and in the light of faith in God so as to embrace success.
Meanwhile the Chair of Royan, Dr Hamid Gourabi, gave a brief account of the center's activities such as creation of transgenic animals.
The first transgenic animal
was born in the research center of the Royan Institute on January 9.
