Chairman and members of the Leadership Experts Assembly - 18 /Sep/ 2010

In a meeting with the Chairman and members of the Leadership Experts Assembly Thursday morning, the Islamic Revolution Leader Ayatollah Seyyed Ali Khamenei presented a comprehensive and precise analysis of the international and local conditions of the Islamic system.
In a meeting with the Chairman and members of the Leadership Experts Assembly Thursday morning, the Islamic Revolution Leader Ayatollah Seyyed Ali Khamenei presented a comprehensive and precise analysis of the international and local conditions of the Islamic Republic system regarding the increasing strength and power of the front of Islam and the Islamic Revolution and the weakness of the front of the hegemonic system more than before as prominent points after 3 glorious decades of the Islamic system.

"The most important duties of the seminary and academic elites and effective persons in the society is strengthening the morale of hope in people, avoiding the atmosphere of pessimism towards the officials, vigilance and not ignoring the enemies' plots, correctly understanding main and marginal issues, not ignoring high national self-confidence and astonishing progresses and the country's atmosphere of work and effort, and taking practical and non-slogan measure of boosting national unity and Islamic solidarity. "

The Islamic Revolution Leader started his speech by explaining the international conditions of the front of the Islamic system and clarifying the behavior of the hegemonic front, adding: "Today, the most prominent point in the behavior of the front of the hegemonic system is the existence of a disease called hyperactivity, the symptom of which is much movement and activity but without focus and goal."

Ayatollah Khamenei regarded the issuance of several resolutions and imposing sanctions, making propaganda and charges against the Islamic Republic, the efforts to keep local dissidents active and making use of all communicative, political, cultural and economic means and facilities as the examples of the vast movement of the hegemonic front against the front of the Islamic system, saying: "All of these movement and activities that are accompanied by hastiness are indicative of the increasing strength, experience and awareness of the front of Islam after 30 years because if this front was vulnerable and weak there was no need for so much plotting and planning."

He considered the current position of the Western world in the international arena and even in the countries under their control and weak and shaky, adding: "This increasing weakness is the result of the spreading of Islamic awakening that has led some countries allied with the West in the region to think of some reconsidering in order to get rid of the pressure of the Islamic wave and the deadlock in which they are crippled and it has given no result too, therefore the hegemonic front is in such a shaky position."

"The issuance of anti-Iranian resolution, taking position against the Islamic system, the 2009 sedition in which the enemies' hands were quite visible and the shameful insult to the Holy Koran are the measures that the hegemonic front has resorted to due to its weakness and the leaders of the hegemonic powers frankly admit to the power of the front of the Islamic system," IR Leader noted.

"Although these measures led to the strength of the front of the Islamic system but they should not lead to negligence, arrogance and sleepiness," Ayatollah Khamenei added.

The Islamic Revolution Leader regarded very important the necessity of detecting the enemies' plots and methods in confronting the front of the Islamic system, saying: "The enemy has focused all its planning on two pivots:

distancing people from the system and shaking the people's especially the youth's religious beliefs."

The IR Leader regarded people as the main backer of the Islamic system, adding: "According to this, the enemy tries to distrust people in the officials and tries in its propaganda to show the officials' every good and proper measure as an incorrect, wrong and against-interests measure."

Ayatollah Khamenei underlined the current Leader of the Islamic Revolution like the late Imam Khomeini has supported the governments and will do the same in the future.

Islamic Revolution Leader rejected allegations by some figures against the country's officials and said they perform in favor of the enemies of the Revolution.

Ayatollah Khamenei warned against some voices which reflect the enemies' demand in the country and said the enemies have plotted to distance the people from their religious beliefs." All should perform against these plots deliberately."

Ayatollah Khamenei termed last year elections as a symbol of Iranian nation's relying on the Revolution's values adding that the nation voted for Islamic slogans and social justice.

Islamic Revolution Leader underlined that the people respect the officials because of their affection for Islam and if the officials separate from Islam and the Revolution, the people would dislike them.

"The favorite manner in the country is the manner of the late Imam Khomeini and the values of Islam and the Revolution which is a great achievement," Ayatollah Khamenei.

Highlighting wonderful scientific progress of the country, Islamic Revolution Leader said that these achievements originate from self-confidence of the youth which should be preserved and strengthened.

Ayatollah Khamenei said that the country is going forward in a correct way adding that following the pressures of enemies and difficult situation in the first three decades of the Revolution, the Iranian nation has become firmer against these pressures.

Islamic Revolution Leader stressed that these pressures are doomed to fail adding that according to the divine promise by resistance of the nation these pressures are doomed to fail.

Ayatollah Khamenei noted that the nation is stronger than the first decade of the Revolution. He underlined for relying on Islam, principals of the Revolution and the goals of the late Imam Khomeini.
