IR Leader inspects strategic technologies fair - 14 /Mar/ 2011

Leader of the Islamic Revolution Ayatollah Sayyed Ali Khamenei on Monday morning inspected the exhibition of strategic technologies in Tehran in order to get familiar with the great achievements of Iranian scientists in the fields of science and technology.

Ayatollah Khamenei visited the memorial of the Iranian martyred scientists, Masoud Ali Mohammadi and Majid Shahriari and paid tribute to them.

The Zionist regime's agents assassinated two Iranian nuclear scientists, Massoud Ali-Mohammadi and Majid Shahriari in the Iranian capital of Tehran.

Several technology and scientific innovations and achievements in the fields of air-space, microelectronic technologies, new power technologies, nano technology, stem cells tech, Information Technology (IT), biotechnology, medicinal plants and medical sciences were displayed in the exhibition, IRIB reported on Monday.
